Work History

Epic Audio Video Intern

Epic Audio Video, Naples, FL

May 2025 - August 2025

- Installed and routed hundreds of feet of CAT6 Ethernet cabling to server racks, access points, and designated locations within residential properties.
- Terminated and tested Ethernet connections, ensuring proper performance and connectivity for network infrastructure.
- Installed, configured, and mounted wireless access points (WAPs) throughout client homes to optimize network coverage.
- Routed and connected extensive speaker wiring, ensuring proper installation and functionality of home audio systems.
- Installed security cameras and mounted televisions, including wall bracket alignment and cable management for a professional finish.
- Assisted in the renovation of the company's main showroom featuring a large 4K LED wall for home theater demonstration, contributing to:
Painting and lighting installation
Recore installation for acoustic sound design
Fabric mounting and finishing over recore panels

Server

The Crust, Naples, FL

April 2022 - August 2022

- Strong multitasking skills by managing multiple tables simultaneously without compromising service quality
- Worked with POS system to place orders, manage bills, and handle complementary items
- Performed opening and closing duties, ensuring the dining area was prepared for seamless service
- Addressed customer complaints or concerns professionally, ensuring swift resolution and maintaining positive relationships

Gas Piping - Apprentice

Always On Generators, Naples, FL

July 2020 - January 2021

- Installed and maintained industrial piping fittings, valves, flanges and clamps to complete system setup
- Fabricated pipe sections and components to specification using cutting, threading, and welding equipment

- Installed new systems and connected piping to existing components by bolting and threading
- Monitored pipeline pressure and flow rates to facilitate safe and efficient operation
- Worked under guidance of experienced professionals to learn trade best practices and techniques.

Heavy Equipment Operator

United States Marine Corps - Marine Corps Base, Camp Lejeune, NC

July 2016 - July 2020

- Performed thorough pre-shift and post-shift inspections and accurately completed equipment logs and reports
- Played in key rolls for successful project completions by maintaining open lines of communication with supervisors and team members, ensuring timely adjustments to work strategies when needed
- Assisted in training new operators on proper operation techniques and safety procedures for various pieces of heavy equipment
- Maintained accurate logs of equipment operation hours, maintenance activities, and project progress for streamlined record-keeping purposes
